FIELD ASSIGNMENTS

1. In response to recommendations made by the Personnel and Training Staff, OL (P&TS/OL), as well as comments that have arisen during recent orientation and RAP sessions, I have decided, on a trial basis, to publish a list of field assignments which will become vacant during calendar year 1974.

2. Although the Logistics Career Service Panels have already made some nominations for these assignments and are currently reviewing the balance, this list is being circulated in order that all Logistics Careerists who believe themselves qualified and have an interest in rotation might have the opportunity to alert the appropriate panel of their interests for consideration during the panel reviews currently underway.

3. Despite the fact that this procedure will give employees an opportunity to volunteer for assignments, I do not want any OL Careerist to think that vacancies will be filled only on a voluntary basis. As a Career Service we are committed to providing the best qualified individual for positions that we must staff, and any volunteer for an assignment will be measured against those individuals who would otherwise be nominated by the career panels for assignment.

4. I have requested the Deputy Director of Logistics, in his capacity as chairman of the Logistics Career Service Board, to take whatever action necessary to see that all panel recommendations for field assignments for calendar year 1974 be forwarded to me for final approval not later than 15 February 1974. Therefore, it is suggested that those of you who have an interest in volunteering for any of the assignments listed below or have any questions concerning such assignments contact [REDACTED] P&TS/OL, on [REDACTED] as soon as possible.
